

Ladder Instructions

Ladder Instructions

(Tools needed: 1/2" wrench, 7/16" wrench, and phillips head screw driver)

1. Assemble lower half of ladder to each of the (2) top halves of the ladder per the ladder instructions in the box.
2. Slide 2 groups of (4) 5/16" x 1-3/4" long carriage bolts into the track system to the approximate location where the Ladder is to be installed.
3. To install the ladder, fasten the Mounting Brackets to the Dock Frame by sandwiching the Ladder between the Dock Frame and the Mounting Brackets. Secure by installing and tightening (4) flat washers and hex nuts on each of the 2 Mounting Brackets.
